

OCCUPATIONAL REHABILITATION POLICY

Metromix seeks to prevent injury and illness by providing a safe and healthy working environment. However, despite our best efforts an injury may still occur.

If this should happen, Metromix is committed to:

- ensuring that the occupational rehabilitation process is commenced as soon as possible after an injury in a manner consistent with medical judgement
- ensuring that return to work as soon as possible by an injured worker is a normal practice and expectation
- providing suitable duties/employment for an injured worker, as an integral part of the rehabilitation process
- consulting with our workers and any industrial union of employees representing them to ensure that our rehabilitation programmes operate effectively
- ensuring that participation in a rehabilitation programme will not, of itself, prejudice an injured worker
